

Title	Shy in front of the camera
Brief description of clip	Video editing suitable for those people who are shy to speak in front of the camera. They can use images, written texts, their voices, puppets or any other resource to create a video clip about anything.
Difficulty rating of production (easy/intermediate/complex)	easy to intermediate
Recommended CEFR level	A1+
Technical details	A video recording device is needed, editing software may be required to put together the finished project.
Suggestions (preparation/pre and post activities)	Brainstorm ideas on ways to use images, written text to communicate with others. You could incorporate use of Creative Commons licenses to increase awareness of ownership and copyright issues around sourcing images for presentation.
Ideas for application in different contexts	See other examples in Video for All such as Poem realisation and Puppet shows .
